Re: B/A 5037 Budget Amendment for Great Western Steam Up

The Nevada State Railroad Museum requests \$35,000 in funding from BA 5037 CAT 55-01 for infrastructure needs to support the Great Western Steam Up in July 2022.

\$24,000 of this request was approved in December of 2021 but did not detail which account it would be drawn from. This memo corrects the oversight.

In addition, the approved projected budget did not cover actual costs. There were no local vendors available for our event. We will obtain our tents from a firm in Las Vegas to support the event. The higher transportation cost of their proposal necessitates this increased request.

Total Request not to exceed: \$35,000

NSRM currently has \$431,695.07 in B/A 5037 CAT 55-01 (Board Approved Special Projects CC) on hand to complete this project.
