RE: Request for funds from BA 5038 Category 42

Lost City Museum is asking for access to \$5000 as a backup, in case the museum does not receive funds from the Nevada Humanities Grant they are still waiting on. Due to the current funding situation at the federal level, the museum is asking for additional monies in case grant funding is not received. This funding is specifically for our annual Native American Heritage Day. If the grant is received before the date of the event, expected in March 2025, these monies will probably not be used.

Anthony Timmons, Chairman of the Board of Museums and History
